

About The Program

The Dominica Economic Citizenship Program is a legal naturalization program based on the law & guaranteed by the Government since 1991. Your second passport is for a lifetime and may not be revoked, regardless of changes of officials or the governmental policy.

Country Background

Located in the Caribbean Basin, Dominica is an island lying between the French overseas territories of Guadeloupe and Martinique. The Country was the last island in the Caribbean to be colonized by Europe. Though the island gained its independence in 1978, it is still part of the British Commonwealth. Dominica offers economic citizenship by investment program inviting potential nationals from all around the world to make an economic contribution to the country. In return, applicants and their families are given Dominica citizenship and a second passport.

Legal Basis

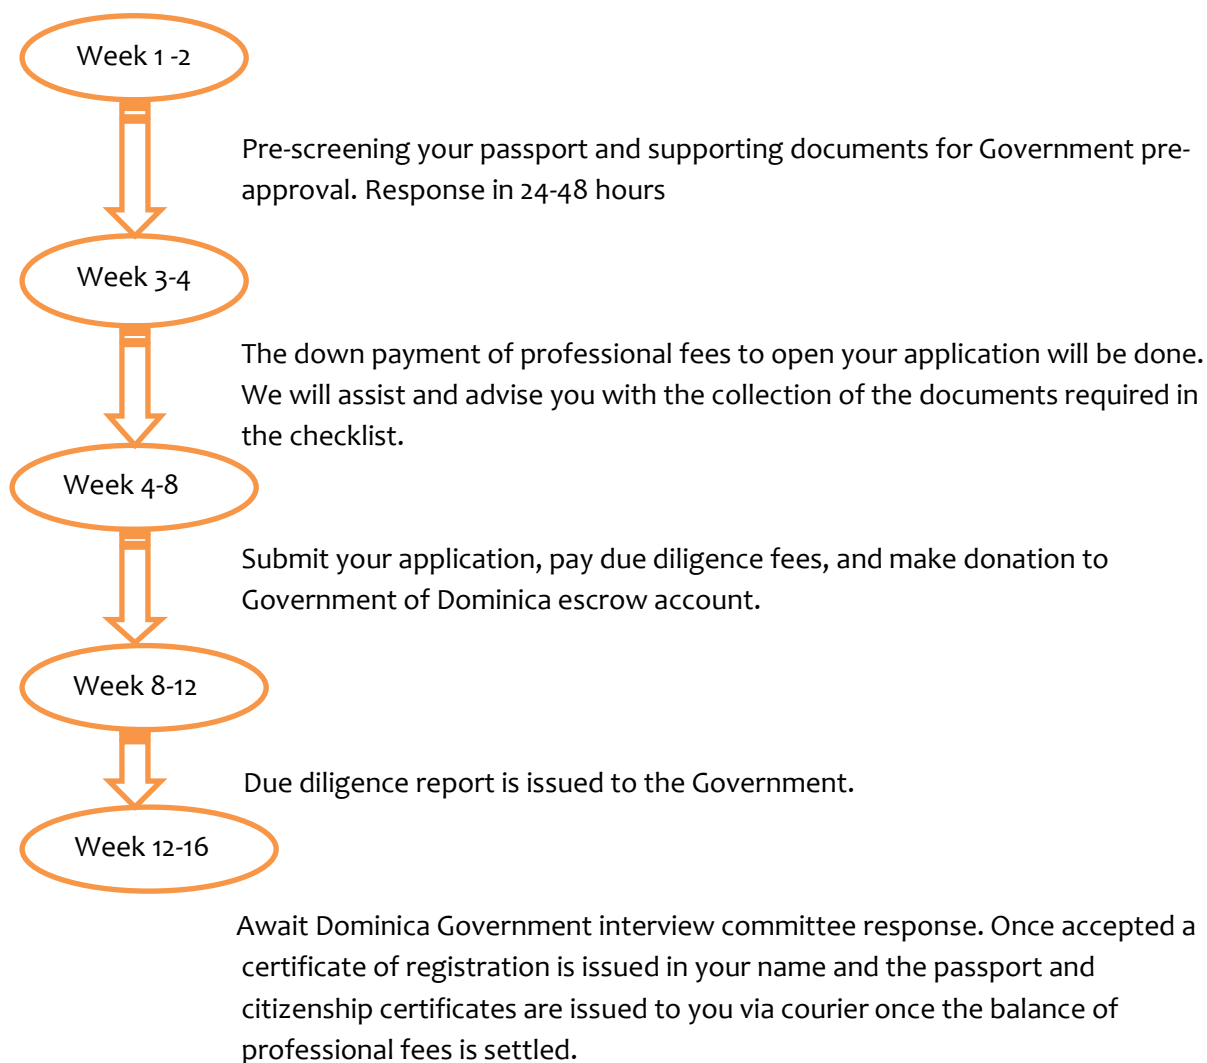

The Dominica citizenship program is based on the Chapter VII, Section 101 of the Constitution, and Citizenship Act, which stipulates that persons who have been a continuous resident in Dominica for five (5) years could apply for naturalization and may be eligible for citizenship. An amendment to this Act in 1993 introduced a concept of Economic Citizenship by Investment and waived a residency requirement for investors making an investment in the amount and form stipulated by the Government. No applicants with criminal records will be approved for a second citizenship in Dominica.
